

Mechanical Temperature Measurement

Thermometer TRCh 100 for indoor and outdoor use

Are you looking for a valuable promotional item? How about a thermometer with individual design?
Supplementing our industrial ambient thermometers, the TRCh 100 is now also available for private use.
The instrument with high-quality stainless steel case is weatherproof and reliably indicates the temperature both indoors and outdoors.

Using the latest technology, we are able to design your customised thermometer. We can implement individual dials with your colour requirements, also combined with your text elements.
